20 PICKS WORTH BETTING ON

Ranked by what I would film first, and why each one earns its slot.

1. **What a broker really makes on one lease**
   The most asked question about the job. Nobody in the industry answers it publicly.
2. **What it costs to build out an office, line by line**
   He's said medical build-outs are brutal. Numbers turn it into a reference video.
3. **Every lease concession, decoded**
   The free rent clip proved the format. This is a series, not a video.
4. **Why tenants actually leave**
   One flagship that replaces seven scattered retention clips. Use the backfill math and the vacancy spiral.
5. **The edge in real estate is offline**
   AI, insider information and go-see-the-property are three clips arguing one thing. Combine them.
6. **Is the office apocalypse real?**
   Mainstream headline, split verdict, Williams Tower as the receipt.
7. **Will AI replace real estate brokers?**
   Rides the 1.5M Jobs AI Replaces series into his own industry.
8. **What Houston businesses you visit pay in rent**
   Recognizable brands plus insider numbers. Only he can answer it.
9. **Rating the cold emails I got this week**
   Free material, refilms forever, and he's on record that cold outreach works.
10. **What a property manager did in one real month**
    Turns the management lane from claims into evidence.
11. **The building I'd buy in Houston if I could only buy one**
    Local, specific, and a real commitment.
12. **How much of my day is actually real estate**
    25+ people across several countries. Nobody films the operator side of a brokerage.
13. **I rated my own channel a C**
    He already did it once in passing. A full self-grading video is disarming.
14. **What I'd tell my 25-year-old self about money, not mindset**
    The definition-of-success question with numbers attached.
15. **Reading the worst listing I ever wrote**
    Self-deprecating, zero risk, and it makes the good advice credible.
16. **Deal autopsy: one that died at the finish line**
    Batch 12 asks the question. This makes it a repeatable format.
17. **What the rent roll tells you that the tour doesn't**
    His accounting background doing what no other broker's content does.
18. **Ranking my own predictions from a year ago**
    Scorecard content. Nobody does it, because most people are wrong.
19. **The 100 square foot exclusivity guy**
    One story, expanded into the difficult-tenant video that set was hinting at.
20. **How Aspire actually gets deals**
    20+ a month. Showing the machine is the best recruiting and client pitch he can film.
