BRANDON / STUDIO FILMING DECK

SESSION 1 | Videos 1-5 | September 2026

01 Who would you rather have renting your building?

THIS OR THAT | 45-75 sec

Assume a typical neighborhood shopping center. Read each pair; ask for a winner and one reason.

- Dollar store or furniture store?
- Auto parts store or tire shop?
- Pet groomer or cell phone repair shop?
- Escape room or tutoring center?

If needed: What about the space would change your answer?

02 How much does location matter for these businesses?

RANKING | 45-75 sec

Score 1-10: how much can the location affect this business succeeding?

- Coffee shop
- Dentist
- Auto repair shop
- Accounting firm
- Online retailer's warehouse

If needed: Which could succeed in a cheap, hidden location?

03 Would you buy next door to this?

RAPID FIRE | 30-60 sec

Assume you are buying a small retail property. Answer yes, no, or depends, then give the deciding factor.

- A nightclub
- A hospital
- A school
- A highway entrance
- A large new apartment development

If needed: Who benefits from that neighbor, and who gets hurt?

04 The business applying to rent your space

GREEN FLAG / RED FLAG | 45-75 sec

Read each situation. Allow 'depends' when there is a real reason.

- Offers above asking rent but won't provide financials
- Successful elsewhere, but opening its first location in your area
- Wants to fund an expensive buildout itself
- Strong financials, but asks for a short lease
- Wants protection from a competitor moving into the center

If needed: What would you verify before making the decision?

05 How much space should your first business lease?

PRACTICAL Q&A | 45-60 sec

Ask: How do you decide how much space to lease when you don't know how fast the business will grow?

- What do you ask before recommending a size?
- Which needs are real versus wish-list items?
- When is extra space worth paying for?
- What flexibility would you try to negotiate?

If needed: What is the most common sizing mistake you see?

FILMING NOTES

- Read prompts in order; the first item is the intended opener.
- Brandon chooses all verdicts. Ask for one reason, then move on.
- Use follow-ups only when the answer needs specificity.
- No props, location shoots, scripts, or advance research required.

SESSION 1 | Videos 6-10 | September 2026

06 When is free rent a good deal for the landlord?

PRACTICAL Q&A | 45-60 sec

Ask: Why would a smart landlord agree to months of free rent?

- What does the landlord get in return?
- How do you compare the concession with more vacancy?
- What about the tenant changes the calculation?
- When would you advise the owner not to offer it?

If needed: What do you check besides the headline rental rate?

07 What does a busy parking lot actually tell you?

PRACTICAL Q&A | 30-60 sec

Ask: Would you rather buy a shopping center with a full parking lot or a half-empty one?

- When is a full lot a good sign?
- When does it make the space harder to lease?
- Which businesses consume parking without helping neighbors?
- What would you look at before drawing a conclusion?

If needed: Would your answer change by time of day?

08 What did your first employee let you stop doing?

BRANDON STORY | 45-75 sec

Ask: What was the first role you hired for at Aspire, and why that one?

- What were you doing yourself before the hire?
- How did you decide you could afford it?
- What actually came off your plate?
- Would that still be your first hire today?

Follow the strongest answer: What changed in your own workday?

09 When did Aspire first win against a bigger firm?

BRANDON STORY | 45-75 sec

Ask: Do you remember the first assignment where you beat a much bigger firm?

- What made the client consider you?
- What did you promise that you could actually deliver?
- Why do you think they chose you?
- What did winning that assignment change?

If no specific deal comes to mind: What usually gives a smaller firm a real advantage?

10 Which jobs make you a millionaire? Next part

BROADER REACH | 45-75 sec

Use the familiar 1-10 format. Define it as wealth-building potential over a career, not guaranteed income.

- Firefighter
- Dental hygienist
- Construction manager
- Air traffic controller
- Real estate appraiser

If needed: Does ownership change the answer? Skip any role Brandon doesn't know enough about.

FILMING NOTES

- For stories, let Brandon answer before choosing a follow-up.
- Skip unfamiliar subjects instead of forcing a confident answer.
- Keep client examples anonymous unless cleared for public use.
- Record a clean opening once the main point is clear.

SESSION 2 | Videos 11-15 | September 2026

11 Who would you rather lease space from?

THIS OR THAT | 45-75 sec

Choose the landlord you would lean toward, then explain what else you would check.

- Owner with one building or owner with fifty?
- Local owner or national institution?
- Owner managing directly or third-party manager?
- Longtime owner or someone who just bought the building?

If needed: Which answer changes most for a small business leasing its first space?

12 What deserves the higher rent?

OVERRATED / UNDERRATED | 45-75 sec

Judge whether each feature usually earns its extra cost for a business tenant. Name the business when it matters.

- A prestigious address
- A brand-new building
- A private entrance
- Reserved parking
- A move-in-ready interior

If needed: Which one looks impressive but matters least to the customer?

13 Where would you open your first business?

GOOD / BAD / BEST | 60-90 sec

Give the three locations a relative order for each business. Assume comparable local demand; explain any essential missing fact.

- Coffee shop: office tower lobby / neighborhood strip center / drive-through site
- Accountant: home office / coworking space / private office suite
- Auto repair: cheap hidden site / expensive main road / established auto-service area

If needed: What would make you reverse the order? There doesn't have to be an objectively bad option.

14 Which business would you want as your neighbor?

RAPID-FIRE COMPARISONS | 45-75 sec

These are tenant pairings. Choose which neighboring business you would prefer and why.

- Coffee shop: gym or nail salon next door?
- Dentist: pediatrician or restaurant next door?
- Boutique: hair salon or insurance agency next door?
- Office tenant: daycare or fitness studio next door?

If needed: Are you thinking about shared customers, noise, parking, or hours?

15 Should you renew the lease or move?

PRACTICAL Q&A | 45-60 sec

Ask: Your landlord raises your rent, but moving is expensive. How do you decide whether to stay?

- What do you compare beyond monthly rent?
- What moving costs do owners overlook?
- When should you start evaluating alternatives?
- What would make moving worth the disruption?

If needed: What can you do before treating relocation as the only option?

FILMING NOTES

- Read prompts in order; the first item is the intended opener.
- Brandon chooses all verdicts. Ask for one reason, then move on.
- Use follow-ups only when the answer needs specificity.
- No props, location shoots, scripts, or advance research required.

SESSION 2 | Videos 16-20 | September 2026

16 Can a famous tenant still be a risky tenant?

PRACTICAL Q&A | 45-60 sec

Ask: If a household-name business wants your space, should you automatically feel safe?

- Who is actually signing the lease?
- Does a franchise name tell you the operator's financial strength?
- What would you review before accepting?
- When could a local operator be the better choice?

If needed: What do inexperienced owners assume the logo guarantees?

17 Why can the same space lease for two different prices?

PRACTICAL Q&A | 45-60 sec

Ask: Could two tenants reasonably get different deals on the exact same space?

- How does the buildout they need affect the deal?
- How does lease length affect it?
- How do financial strength and guarantees factor in?
- Why can the lower headline rate still be the better deal?

If needed: What is a fair reason to offer one tenant more concessions?

18 What is success at 25 versus 35?

BRANDON STORY | 45-75 sec

Ask: What was your definition of success at 25, and how did it change by 35?

- What milestone were you chasing at 25?
- What did reaching it actually feel like?
- What did running a company change?
- What matters more to you now?

Follow-up: What would your 25-year-old self misunderstand about your life today?

19 What decision did your team change your mind on?

BRANDON / BUSINESS | 45-75 sec

Ask: Can you remember a business decision where your team convinced you that you were wrong?

- What did you originally want to do?
- What did they see that you had missed?
- What convinced you to change your mind?
- What happened after you made the decision?

If no example comes to mind: How do you want an employee to challenge your decision?

20 What would you choose early in your career?

BROADER REACH / COMPARISON | 45-75 sec

Choose one in each pair for someone trying to build a long-term career. Say when the answer depends on their situation.

- Higher salary with little training or lower salary with a strong mentor?
- Big-name firm with a narrow role or small firm with broad responsibility?
- Immediate commission role or paid apprenticeship first?
- Stay in your hometown or move for the right team?

If needed: Which choice did you personally make, and would you make it again?

FILMING NOTES

- For stories, let Brandon answer before choosing a follow-up.
- Skip unfamiliar subjects instead of forcing a confident answer.
- Keep client examples anonymous unless cleared for public use.
- Record a clean opening once the main point is clear.

Optional notes:
